EDUCATION   Senior

KIU	Kutaisi International University	Sept 2020 – Present

- **Major:** Computer Science
- **Minor:** Management
- **Programming coursework:** Introduction to Informatics, Data Structures and Algorithms, Object-Oriented Programming, Web Development, Database Systems, Software Engineering
- **Management coursework:** Principles of Management, Marketing Management, Financial Accounting, Human Resource Management

EMPLOYMENT

Frontend Engineer Group Lead & Tester	ECOWOOD	Jun 2022 – Present

- Participated in the USAID project at university and build a website for Ecowood, a leading importer of natural wood materials and varnishes in Georgia.
- Developed "Altax" website to showcase Ecowood's representation of Polish company Altax in Georgia.
- Continued leading a dedicated team in collaboration with Ecowood as freelance developers, providing ongoing support, enhancements, and new projects.
- Acted as team lead, connecting with Ecowood and ensuring project goals aligned.
- Conducted testing on both frontend and backend, utilizing tools like Postman and Console.
- Implemented frontend features including payment systems, multilingual support (i18next library), token systems with httpOnly cookies, time-sensitive special discounts, and frontend admin panel.
- Website currently down, actively working on v3 release with additional features.
- Current role focuses on website maintenance and support.

Teaching Assistant	Kutaisi International University	Mar 2023 – Present

- Graded students' homework assignments and provided feedback.
- Assisted students in solving tasks and conducting laboratory sessions.
- Held regular office hours to address students' questions and concerns.
- Conducted free lectures on JavaScript engines and memory-level programming.
- Course Topics: Scripting Languages (JavaScript, TypeScript), Web Technologies (HTML, CSS, SCSS), JavaScript Libraries (React, Redux, Redux Toolkit).

Achievements

ICT	USAID	Oct 2022

- Secured a grant for the participation in the USAID-funded project "Information and Communication Technology (ICT) Solutions for Micro, Small and Medium Enterprises (MSMEs)" implemented at Kutaisi International University with funding from the USAID Economic Security Program.

- Successfully built and deployed a website for Ecowood, a prominent Georgian company specializing in the import of natural wood materials and varnishes.

Rust and Swift: Powered by Ownership	Scientific Paper	Jun 2023

- Authored a scientific paper on ownership-based types as a task assigned by Kutaisi International University.
- Explored the concept of ownership-based types and their impact on programming language design and memory management.
- Conducted in-depth research, analysis, and documentation of findings.
- Demonstrated strong critical thinking, problem-solving, and academic writing skills.

Skills and Knowledge

Proficient

- ✔ JavaScript
- ✔ TypeScript
- ✔ HTML/CSS
- ✔ SCSS, SASS, CSS classes, Styled Components
- ✔ Git, GitKraken, Sourcetree
- ✔ React, Redux, Redux Toolkit, Axios
- ✔ Formik, useForm hook, Yup, Zod
- ✔ MariaDB, MySQL
- ✔ Linux (Ubuntu), VS Code, XAMPP

Familiar

- ✔ Theoretical knowledge of graph/document databases
- ✔ MongoDB
- ✔ Docker
- ✔ Python
- ✔ Eslint
- ✔ Java
- ✔ OCaml
- ✔ Agile development methodologies
- ✔ Duckietown

Language Proficiency

- ❑ **English:**   B2
- ❑ **Russian:**   B2
- ❑ **Georgian:** Native
- ❑ **German:**   A1
